

REMARKS

Currently, claims 69, 70, 72, and 74 are pending and under examination in this application. By this Amendment, a new Sequence Listing is provided as a replacement for the one filed on 28 January 2009. Support for the new Sequence Listing comes from the Sequence Listing originally filed with the application. Accordingly, no new matter is added by this Amendment.

I. *Objection To The Sequence Listing*

The Office objects to the Sequence Listing, asserting that there are numerous errors in field <223>. By this Amendment, a new Sequence Listing is submitted that provides additional information in field <223>, as advised by Sequence Specialist Examiner Dave Nguyen.

Applicants submit that the new Sequence Listing is identical in its disclosure of sequences to that of the originally-filed Sequence Listing, and thus does not introduce any new matter. In view of the Sequence Listing filed herewith, Applicants requests that the Office withdraw the objection to the Sequence Listing.

Applicants note that, because this paper is being filed electronically, a PDF ("paper") copy of the Sequence Listing is not necessary and is not being filed, as per USPTO examination policy.

II. *Conclusion*

In view of the foregoing amendments and remarks, Applicants submit that this application is in condition for allowance. If the Office believes anything further is necessary to place this application in even better condition for allowance, Applicants request that the undersigned representative be contacted at the telephone number listed below to discuss the remaining issues.

Please grant any extensions of time required to enter this paper and charge any required fees to Deposit Account No. 50-3740.

Respectfully submitted,  
Holly HOGREFE et al.
